Realization of Education Scholarship 2017

Description

First of all, I would like to say thank you for your support you gave to us. Through these funds we can help more poor children. Until now, we still consistent to distribute scholarship for children from the poor families. We distribute scholarship for the student from elementary school until Vocational High School. In our consideration, there are two elements that the poor children should have; basic education and skills.

For the new academic year (2017-2018), we opened scholarship registration on June 20. It was more than 570 students sent application of scholarship (new applicants and continuous scholarship receiver). Realino (included volunteers) did all procedures to select the applicants, by observation and interview the new applicants. There were 10 volunteers that helped us to observe the new applicant. Based on observation and interview, we categorized the applicants into 3 categories: very urgent, urgent, and not urgent. Finally, we decided to receive 422 students for this academic year (2017-2018).

Through observation and interview, we still realized that most of the applicant submit application because of economic condition. But, there are also broken home, divorce and conflict families. That situation (broken home) weaken financial support, including education fund, because only one of their parents who get to earn money. We have to make sure that no one families help them before decided to give scholarship or not.

Based on our awareness last year, we are more focused on the poor urban in Yogyakarta. We entered the slums to observe children who were not attending school because of poverty. We realized that there are a lot of families that face difficulties to send their children to school due to economic conditions. We saw the economic gap between the rich and the poor. We found more than 10 children that not go to scholl because of they can not pay the school tuition. We over them scholarship so that they can continue their study. Most of the children who receive scholarships come from several poor areas, for example: Yogyakarta, Wonogiri, Bandungan, Sukorejo, Weleri and Wonosari. The Children who receive scholarships come from poor families, which most of their parents work as tricycle driver, scavenger, goods seller, farm laborers with a very small income.

New Awareness

This academic year (2017-2018) some parent came to Realino and told us that their economic condition is better because they begin a new small business. They asked us to stop the scholarship they got and give to the other children. We give appreciation to that families because of that awareness. They are not depend on us but they also struggle to be better. This

moment give us new awareness and challenge to accompany families that in the struggle to grow better.

The families who came and asked us to stop the scholarship counter our worries that families will depend on us. In fact, there are no families that want to live in poor condition. they will try to live better. But, we must remain aware that there is still the possibility of families becoming dependent. Dependency of the scholarship made the parents is effortless to support the financial of their children education.

This year we are very happy because more and more volunteers are helping us. They help us to observe the applicant and they also help us in other program. They said that their social concern grew because of this activity and other project with Realino. We are we are very grateful to be able to educate young people (volunteer) to be more concern in social problem. they work with the typical spirit of young people.

This academic year, the applicant from Vocational High School is increase. Last year the number of registrants from Vocational High School is only one-third of the total applicants, this year more than half. There is a possibility that the economic condition of the family has started well. They are able to send their children to school until Junior High School but still too expensive to send children to vocational school.

Realization

We are very grateful for the additional funds you gave for us. Through that fund, we can help more poor children. The whole of the funds are distributed. In this part, I would like to give account report the donation. The first part is the global calculation of donations and the realization. The second part is a list of scholarship recipients.

Finally, Realino really like to thank Mr. Anton and Mrs. Anneke for all the support to children so that they can go to school. Thank you for your generosity. Without your help many children will not be able to continue their studies. Hopefully Mr. Anton and Mrs. Anneke and all the companions in *Stichting Projecten Kleinschalige Indonesie* always receive blessings from God.
