Realization of Education Scholarship 2018

Preface

First of all, I would like to say thank you for your support you gave to the children through us. The educational assistance they get really helped them. Every year we help poor children to get education so that they have hope for a better future. Every year we open scholarships registration for students from poor families but the we always found different dynamics which are always interesting to reflect.

Registration Process

This year, Idul Fitri, the big celebration of Muslims, falls in the mid of June. In that celebration people will visit their relatives to share and forgive each other. Sometime they have to travel long distances to visit their relatives. This celebration is more important than anything. Many public service offices will close almost a week in this celebration. Idul Fitri is not only celebrated by Muslims but all Indonesian citizen, across religions and cultures. We have to understand this situation. Because of this condition Realino prolonged the schedule of scholarship registration. Usually we open registration on 1st -20th June, this year we open scholarship registration on 1st-25th June.

We prolonged the registration schedule but we can't postpone the schedule of announcements because children have started school and have started paying. So the schedule of announcement still on 25th July because. The consequences are we have to work faster and more careful to make a selection of scholarship applicants. Therefore we invited more volunteer to visit scholarship applicant. We have to get ready for next year because Idul Fitri will be in the beginning of June along with the scholarship registration. We have to modify registration schedule because of that celebration so that everything can run smoothly.

Selection Process

For the new academic year (2018-2019), 512 students sent application of scholarship (new applicants and continuous scholarship receiver). They are from several part of Yogyakarta and Central Java, such as: Wonosari, Karanganyar, Surakarta, Wonogiri, Sukorejo, ect. There were more than 10 volunteers that helped us to observe the new applicant. Through observation and interview we decided to receive 384 students for this academic year (2017-2018), they are: 133 students from elementary school, 121 students from junior high school and 130 students from vocational high school.

The number of scholarship recipients does not match the target in our proposal 2018. This year we have a target 430 recipient but we accepted 384. In the selection process, we are not

only pursue target numbers but we decide based on observations made directly. We distribute scholarships for children who are really poor. There are scholarship registrants who need help because of family conflicts. We encourage family conflicts to be resolved so that children do not become victims.

Last year, we are aware with the student from poor families that live in slum around Yogyakarta. This year we give more attention also for them. We entered the three slums in Yogyakarta (Bong Suwung, Prambanan and Pingit) and observed that there were children who drop out from school because of economic difficulties and parents who don't care for their children. Their condition is not very good and has not received attention. These children in this area often drop out of school after graduating from elementary school. For this community, we are more selective in providing scholarships to children. We ensure that they have not received assistance from the government.

The government began to pay attention to children by providing educational assistance but the weaknesses are in the selection process. Assistance from the government is coordinated by the chairman of the region (*ketua kampung*) but nepotism often occurs. Only people who know the chairman well who gets help. Therefore, educational assistance is sometimes not on the right target. We often find children from disadvantaged families who have never received help from the government even though they really need it.

Maintain Accountability

Every year we distributed scholarship for poor children. We distribute scholarships every semester, in the end of the semester, all scholarship recipient have to give us their semester report from school. After we get the report we will distribute the scholarship for the new semester. We asked this to make sure that the children really continue their study. We have done this a few years before because there is scholarship recipient who have left the school but are still taking scholarships.

The semester report collection can be individual or collective arranged by the school. In the end of 1st semester, academic year 2017-2018, there was many student that did not sent their semester report for us (*we give a red mark on the list of scholarship recipients*). We remind them but no respon so we stoped the sholarship for the 2nd semester, academic year 2017-2018. In the new academic year (2018-2019), they come and explain why not collect semester report from school. We understand that scholarships are given to the poor student but the recipients must also understand that we must ensure the scholarship reaches the right person.

SD Kanisius Jamprit is one school that collects rapot collectively arranged by schools. But they did not sent semester report for us. They said that there was personal problems at school that interfere communication between teachers. They apologized to Realino and said that the problem was over. They are responsible for mistakes. They still do not charge tuition for the children who receive the scholarship even though the scholarship is not sent because of school errors.

New Awareness

After we entered some of the slums in Yogyakarta, we see a circle of poverty that won't stop if we doesn't act with the holistic approach. The background in poor families with low education. Parents will be busy fulfilling life's needs rather than paying attention to their children. Furthermore, parents will educate their children as best they can according to their limited knowledge. The limitations of parent education affect children's parenting and the environment has a stronger impact on children. Aware of this condition, we make additional activities for children and parents.

This year we have a new awareness of poverty in Yogyakarta. There are many people coming to Yogyakarta to looking for work. They are not formally Yogyakarta residents but they have also left their place of origin. Finally they do not have clear identity and become very vulnerable people. They don't have access any assistance from government, such as; health insurance. They live in the carts with the whole family and move around, they take care of their children also in the cart. this makes us reflect, what we can do for them especially for the children.

Realization

We are very grateful for the additional funds you gave for us. Through that fund, we can help more poor children. The whole of the funds are distributed. In this part, I would like to give account report the donation. The first part is the global calculation of donations and the realization. The second part is a list of scholarship recipients.

Global Calculation of Donation

No	Date	Donation	Scholarship	Detail
1.	8 Januari 2018	Rp. 191.291.520		
2.			Rp. 89.844.000	2nd Semester Academic Year 2017-2018
3.			Rp. 96.351.000	1st Semester Academic Year 2018-2019
	Remaining Budget	Rp. 5.096.520

Finally, Realino really like to thank Mr. Anton and Mrs. Anneke for all the support to children so that they can go to school. Thank you for your generosity. Without your help many children will not be able to continue their studies. Hopefully Mr. Anton and Mrs. Anneke and all the companions in *Stichting Projecten Kleinschalige Indonesie* always receive blessings from God.

Yogyakarta, 12 Oktober 2018

A handwritten signature in black ink, appearing to read 'Yohanes', with a long horizontal flourish extending to the right.

Yohanes Adrianto Dwi. M, SJ
Director of Realino Foundation
